**DETAILED ACTION**

***Claim Rejections - 35 USC § 103***

Claims 1-39 are rejected under 35 U.S.C. 103(a) as being unpatentable over the publication by Johansson et al. Johansson et al discloses a process for the recovery of copper from chalcopyrite at an elevated temperature which resulted in 94% extraction of the concentrate copper in 90 days ( pages 1-6) but does not disclose "hypogenic copper sulfide bearing ore" but since this expression includes chalcopyrite (see applicants' specification, page 1, lines 20-22) it would have been obvious to one of ordinary skill in the art at the time the invention was made that the types of materials that can be treated in the present method includes chalcopyrite as taught by Johnson et al.
